Dr. Izhar Hussain
Director
Center for Executive
Education

"The competitive forces that managers face today and will continue to confront in the future demand organizational excellence. The efforts to achieve such excellence-through a focus on learning, quality, teamwork, and reengineering-are driven by the way organizations get things done and how they treat their people. Those are fundamental HR issues. To state it plainly: achieving organizational excellence must be the work of HR".

Dave Ulrich

In pursuance of IBA's dictum: Leadership and Ideas for tomorrow, Post Graduate Diploma in Human Resource (HR) was launched in 2015. Scholarly community of academics, distinguished experts, and reflective practitioners collaborated in designing and tailoring this program to local requirements with global perspective. The reasons for its launch are:

- to encourage systematic study of human resource development theories, processes, models, and practices;
- to explore relevance of global success models in the local context;
- to promote time-tested evidence based management of Human Resource Development(HRD) findings;
- to encourage culture of research in Pakistani Human Resource (HR) fraternity;
- to establish HR as a strategic business partner for continuity of business growth and expansion; and
- to provide opportunities for social interaction among individuals with scholarly and professional interests in HRD from multiple disciplines and from across the globe.

With this perspective, the first batch is about to pass out with Post Graduate Diploma in 2015; and, we wish them to best wishes. We are confident that they would immense add value to the businesses and industry.

We invite you to join 2016 batch of the Post Graduate Diploma in HR and join the future leader team with new ideas to achieve organizational excellence.
