

20 hours interactive training on professional selling skills

Selling...Made Easy

Overview

The field of **Personal Selling** has matured into a professional endeavor. To-day, selling may be a stronger profession because of the obstacles it has overcome and sometimes still battles.

Today, and in the years ahead, salespeople will be guided by a new principle of personal selling: **Partnerships are established and maintained only when the salesperson creates customer value.**

Customers have fundamentally changed their expectations. They want to partner with salespeople who can create **value**, not just communicate it. Value creation involves a series of improvements in the sales process that enhance the customer experience.

The course is designed in modular form to equip you with all the necessary tools of professional selling i.e. creating relationship, making strategy, planning calls, giving presentations and follow-ups.
