

Workshop on Project Management

**Strategy &
Management**

Feedback Ratings*
Faculty 4.7/5 Program 4.6/5

December 16 to 20, 2014

9:00am – 5:00pm

Venue: CEE@IBA, Karachi

OVERVIEW

This workshop is now certified with Project Management Institute (PMI), USA and is offered by CEE as Registered Education Provider (REP-PMI).

The workshop will introduce a structured approach to managing projects in any industry or financial institution.

It will provide participants an opportunity to gain managerial practice through the development of 'Projects Execution Manual' for a real life project.

The Project Management Institute's (PMI) Project Management Body of Knowledge (PMBOK) would be taken as the basis to achieve the desired target.

PARTICIPANTS' PROFILE

- Professionals
- Project Team Leads
- Project Managers
- Program Managers

LEARNING OUTCOMES

- Learn and apply a structured approach to projects for consistently managing them successfully
- Discover the whole range of competencies needed to be an accomplished project manager
- Develop understanding of the requirements and complexities of project management
- Explore and apply a set of more than two dozen tools available for effective project selection, planning and monitoring
- Comprehend the personality traits required in a project manager
- Develop professional networking contacts

Testimonials

A very important course for professional and personal growth. IBA CEE serves as the perfect learning incubator, if it may be called so.

Mr. Farrukh Mujahid

Manager Coordination, Dawn Group of Newspapers
(Pakistan Herald Publications Ltd.)

Course was well planned and tailored to the audience. Examples were relevant and this felt like a corporate learning session and not a class room, great experience and as an alumni, I am proud we are going in the right direction.

Mr. Aiman Khan

Internal Auditor, Chevron Pakistan Limited

* Based on Kirkpatrick's Feedback Rating Model on the scale of 5

Special Features

The complexity of project management knowledge is demystified by means of simplified explanations for easy understanding through common everyday examples that are enriched through professional real world instances to build a strong understanding of project management fundamentals.
