

Performance Management Essentials

August 21 & 22, 2017

9:00am – 5:00pm

Venue: CEE@IBA, Karachi

OVERVIEW

A systematic approach towards performance management results not only in a better fit between activities performed and activities required, but also optimizes the organizational resources by providing specificity for benchmarking, planning and directing. An absence of such an approach results in the wastage of organizations' energies and also in organization's failure to achieve its goals and objectives.

This two-day workshop will enhance participants' knowledge on performance management's concept and modern performance management tools and also develop their skill and confidence in identifying and implementing a suitable performance management process to manage the performance of individuals and teams, through an experiential learning approach.

Topics Covered:

- Aims, Characteristics and Guiding Principles of Performance Management
- Understanding the vital link between Performance Management and Strategic Planning
- Six components of a performance management cycle (Pre-requisites, Performance Planning, Performance Execution, Performance Assessment, Performance Review, Performance Renewal & Re-contracting)
- Understanding the concept of SMART Objective setting.
- What is Job Analysis and how it helps in ensuring effective Performance Management of individuals and teams.
- Job Description (JD) as an outcome of Job Analysis and fundamental guiding document for developing SMART Objectives.
- Practical exercises to learn how to develop SMART Objectives, using various JDs according to the functional background of participants. Supported by a case study to solve a real life situation on Performance Management
- "Competency" based Performance Management, assessing behaviors (The HOW part along with the WHAT part).
- How to conduct effective Performance Appraisals.
- Development Plans – an essential element of effective Performance Management

Who should attend?

This workshop is designed for Middle and Line Management employees who have people management responsibilities. Also a good learning opportunity for HR managers who are responsible for developing and implementing Performance Management System in their organizations.
