

Workshop on Digital Innovation for the Pharmaceutical Industry in Pakistan

Lahore January 23, 2018
Karachi January 25, 2018
9:00 am to 5:00 pm

OVERVIEW

This workshop is part of IBA's Digital Innovation initiative with a purpose of educating Pakistan's Pharmaceutical Industry in ways they can transform their capabilities in becoming true Digital Enterprises. Below are a few points to consider

- In 2017, out of the \$1 trillion global health market, \$200 billion counts for Digital Health. It was \$80 billion in 2015.
- Digital Innovation is the biggest growth driver in Pharma. It affects Manufacturing, Supply Chain, Logistics, Accounting/Finance, Marketing/Sales and all areas of the business.
- Pharma leaders are aware of the disruptive potential of digital, yet 70% struggle to determine the type and nature of digital initiatives that would be needed for their survival and growth.
- Data gathered through digital efforts can aid in compliance, exports, brand image and help overcome the challenges of counterfeits, grey markets and parallel trade, etc.
- Pakistan's 650 Pharma's cannot take the \$2 billion market share to \$5 billion without embracing Digital Thinking.

WHO SHOULD ATTEND?

Forward-thinking Business Owners, CEO's, Deputy CEO's and Group Heads responsible for the future growth and profitability of Healthcare and Pharmaceutical enterprises in Pakistan.

FACULTY:

Javaid Iqbal is a

- Digital Futurist/Advisor/Educator, who for the past two decades has been helping global businesses, governments, and academic institutions across the Americas, EMEA and APAC transform and achieve objectives through the use of disruptive and innovative technologies.
