MS EXCEL DASHBOARD REPORTING

Large data reporting at your tips

Jan 27 – Feb 21, 2015

Every Tuesday, Thursday & Friday

Time: 06:30 to 08:30 pm

Fee: PKR 15,000

**Do your Excel reports take a long time to update each month, each week?
Do you spend hours collating data, updating formulas and charts and then feel
like no one reads them anyway?**

It doesn't have to be that way!!!

Excel Dashboards skills are the new buzzword employers are looking for.

If you have or want a career that involves creating reports in Excel, then you need to know how to create impressive, interactive, and easy to read Dashboards

This course will get your skills up-to-date by teaching you how to create Dashboards that will impress your boss even if you don't have an artistic bone in your body.

In this program we will teach you how to create amazing interactive Excel dashboards that update with the click of the Refresh button, or with a simple copy and paste of your new data into your spreadsheet. They'll amaze your boss and take your career to the next level.

What is a Dashboard?

Dashboard reports allow managers to get high-level overview of the business and help them make quick decisions. Dashboards are often called as management dashboards or information dashboards or dashboard reports.

What is Excel Dashboard Reporting Program?

Excel Dashboard Reporting is structured and comprehensive training program for learning Microsoft Excel executive reporting. It is full of real world examples.

The aim is to make beginners become proficient and skillful in Excel. It has an optional module on Dashboards, which can teach you how to design awesome Excel Dashboards.

Why should you join this program?

These days, any managerial or analyst role requires that you work with large data. Excel remains one of the most powerful and easy to use tools when it comes to crunching data. Learning Excel in a proper and structured way can not only help you save time, but it will also help you become better at your job and can give you time to focus on things and people that matter.

While we can argue that Excel can be learned by reading help and visiting blogs, it also takes a good amount of time if you use that method.

Today, there are over thousands of articles, tutorials and examples on excel websites explaining almost every aspect of MS Excel. There are thousands of useful, free and fun articles on learning Excel across Internet. It would take almost 6 months if one reads an article a day to master some of the core concepts of Excel. Even then you may not know some important things. IBA has designed Excel Dashboard Reporting Program. This is a structured program with 8+1 modules (**Hands on practice + Quiz & Assignments**). This is an intense, focused and clearly defined program to help you learn Excel in useful and creative way.

Who is it for?

The course is for you if you:

- Want to change career or apply for a new job;
- Already prepare reports of any kind that require updating with new data on a regular basis (weekly, monthly....) and, or;
- Work with charts and, or;
- Work with large volumes of data and, or;
- Import data into Excel from another source e.g. another database, Access, Web, Text files etc. and, or;
- Often don't know the best chart to use to display your data.

Finance Executives, Business Analyst, Marketing & Sales Professionals & anyone who wants to become expert in Dashboard Reporting in Excel.
