**Saturday Classes**  
Starting From: August 29, 2026

**OGTI, Islamabad**

**PKR 175,000 + 03% SST**

**REGISTER NOW**

## PROGRAM OVERVIEW

In today's fast-paced and execution-driven environment, organizations across sectors—from infrastructure and energy to IT, banking, and public services—are increasingly dependent on structured project delivery to achieve strategic outcomes. Delays, cost overruns, scope creep, and poor stakeholder alignment continue to impact project success, making professional project management capability a critical organizational need.

The Diploma in Project Management is designed to provide a structured, practical, and industry-aligned understanding of project management frameworks, tools, and leadership practices. The program enables professionals to plan, execute, monitor, and deliver projects effectively—while aligning project outcomes with organizational strategy.

## PROGRAM COVERAGE

Key areas covered in the diploma include:

- Overview of Project Management Frameworks and Lifecycle
- Project Integration, Scope, Schedule, and Cost Management
- Quality, Resource, and Team Leadership in Projects
- Communication and Stakeholder Engagement
- Risk Identification, Analysis, and Mitigation
- Procurement, Contracts, and Vendor Management
- Agile and Hybrid Project Management Approaches
- Advanced Project Management Tools and Digital Platforms
- Introduction to PRINCE2 Fundamentals
- Industry Applications across IT, Infrastructure, and Public Sector

The curriculum integrates concepts from the Project Management Institute (PMI) and PRINCE2 frameworks, supported by practical tools, case discussions, and industry-relevant applications.

## WHO SHOULD ATTEND

This program is suited for:

- Project managers and project coordinators
- Engineers, IT professionals, and operations managers
- Mid to senior-level managers involved in project delivery
- Professionals transitioning into Project-Based roles
- Entrepreneurs and business leaders managing projects and initiatives

## LEARNING OUTCOMES

Upon completion, participants will be able to:

- Plan and manage projects using structured frameworks and tools
- Control project scope, schedule, cost, and quality effectively
- Identify and mitigate risks proactively
- Lead project teams and manage stakeholder expectations
- Apply both predictive and agile approaches to project delivery
- Improve project success rates through better governance and execution
