ABOUT THE COURSE

Getting along with professionals can prove to be a difficult task when social interaction is affected by pronunciation issues. Think about it, when you can speak clearly and correctly, having natural flow in your speech, people will enjoy talking to you. Doing business live or via telephone would not be an issue. Presenting in front of an audience your ideas and projects with confidence will only highlight how professional you are.

“Communication is a skill that you can learn. It’s like riding a bicycle or typing. If you’re willing to work at it, you can rapidly improve the quality of every part of your life.” – Brian Tracy

I attended the 'English Pronunciation for Communication' workshop at IBA Center for Executive Education from 25th June till 3rd July 2018. The interactive teaching style with experiential exercises made it easier for me to understand the phonetics of different word families. Ms. Barera is a wonderful trainer who engages the audience in practical activities during the sessions. This workshop has helped me a lot to improve my English pronunciation.
