

# Workshop on Business Transformation Secure the Future

August 06, 2019

9:00 am to 5:00 pm

Venue: CEE@IBA, Karachi

## OVERVIEW

This workshop aims to prepare you for the wave of business transformations that are essentially driven by disruptive technologies and the ever increasing integration of online and offline experiences in almost every industry vertical. It will focus on what a real transformation truly entails and the value it will generate for your customers, employees and your organization's decision makers.

## PROGRAM DETAILS

This is a 1-day workshop aimed at individuals such as; C-level Executives, Directors, Managers/Team Leads, Internal Innovators, Head of Departments, Strategists, and professionals in organizations seeking to understand and implement digital strategies within their organizations. It is also for those who want to advance their careers by learning about the disruptive technologies that are required to think and function like a digital leader.

## LEARNING OUTCOMES

By the end of this workshop, participants will: -

- Understand what Exponential Transformation is, and what are the technologies that enable it
- Learn about disruptive technologies and disciplines can transform your processes to deliver value
- Develop the ability to gauge the current state of exponential development in your industry?
- How can you make your organization a disruptor to save it from being disrupted?
- What is the best course of action for successfully implementing exponential transformation in Pakistan?
- How to develop the right mindset to start thinking like a disruptive innovator

## COURSE METHODOLOGY

The teaching methodologies adopted by our instructors are 'facilitator based' and focus on 'Centered Learning' using case studies, simulations and engaging activities for the participants to gain effective tools and techniques to implement digital strategies.

## FACULTY

### **Dr. Basit | Visiting Faculty Member, Institute of Business Administration**

Dr. Basit holds a doctorate from the prestigious Imperial College, University of London and has more than 30 years of experience spanning state of the art technology companies, teaching and leading research activities.
