## PROGRAM OVERVIEW:

This hands-on workshop provides structured knowledge of projects and their management in any industrial sector. It exposes the participants to the diversity of approaches, tools and techniques utilized in the field of Project Management. It will develop an understanding of the fundamentals of project management framework along with the recent ideas and practices on agile project management, project risk management, public procurement, and large-scale projects. Cases and exercises including hands-on training of MS Project will help the participants to analyze and enhance their knowledge and skills as project managers in a turbulent and uncertain environment. Topics covered, with handholding and multiple walk-throughs by experts, makes this interaction deep and cutting edge – as PMI's PMBoK and ISO-21500 remain the baseline.
