

“ MANAGEMENT DEVELOPMENT PROGRAM ”

May 23 - 27, 2022

PROGRAM OVERVIEW

MDP is designed to strengthen and to transform managers from Mid to Senior positions. This is highly engaging program to develop an understanding of management concepts, practices, approaches, and perspectives in volatile business world. This program focuses on bringing the best in oneself and others by adopting the skills and competencies essentially required in uncertain business environment and organizational cultures.

This five days' dynamic program will address the key issues that are a part of the general management domain. The program will emphasize strategic, functional, tactical, and personal aspects associated with management to transform managerial cadres into future leaders. The program will provide hands-on and pragmatic insights for managers who want to enhance and polish their existing competencies, knowledge, and skills and rethink management within the contemporary framework.

“

Knowledge & way of mentor teaching was excellent. Relevant videos, activities & exercises were used for an awesome interactive learning.
