Leadership and Ideas for Tomorrow

Certificate in Procurement Management for the Public & Private Sector Procurement Professionals

Center for Executive Education
Institute of Business Administration

Overview

The Government of Sindh has recently released the latest amendments to the Sindh Procurement Rules 2009. Equipped with the new, modern and business-friendly rules, it provides an excellent framework for the procurement officers in public and private sector organizations.

The rules focus on fairness, transparency and most importantly 'value for money'. They provide opportunities for procurement improvements through best practices, and ultimately 'Procurement Leadership'. This workshop further fulfills the mandatory eligibility requirement of SPPRA regarding carrying out procurements and allied functions.

The Center for Executive Education (CEE) at the Institute of Business Administration (IBA) Karachi, is organizing five days' workshop on understanding generally "Procurement Management" and specifically "Public Procurement Framework and Regulations in Sindh". The workshop will provide procurement managers or officers and interested professionals with a solid understanding of "Procurement Management under SPP Rules" through examples and case studies.

The workshop is not only beneficial for professionals from public sector but also from private sector, as more and more private companies are providing goods and services to the public sector. Understanding of rules enhance their opportunities and decrease the occurrence of inaccuracies.

All faculty involved in this program are certified by SPPRA for the Procurement Management.

Learning Outcomes

- Learning phases of procurement life cycle from both buyers and sellers' perspectives;
- Understanding of key issues and best practices in procurement management;
- Understanding different procurement methods;
- Selecting the right procurement method with the aid of theories, principle and tools;
- Preparing and evaluating bidding documents;
- Exposure to tons of real-time cases and examples, and;
- Transformation into Life-long Learners as exposed to Global Certifications and Associations

Topics Covered

- Procurement Planning
- Procurement Methods
