

Masterclass

Finance for Non-Finance Executives

February 29 to March 1, 2024

NIBAF, Islamabad

Program Overview

Understanding of numbers is imperative in today's highly competitive business world. It is considered as a business language and a basis for business decision making. Accounting is the vehicle that helps the management in planning and controlling the resources of the business. The more important decision, the more need for relevant information. There are financial implications for each decision a manager takes, and even in decision requiring qualitative aspects.

This workshop provides requisite basic concepts of finance & accounting, including terminology and assumptions, valuation, financial statements, identify trends, and study competitors and thus become strategic users of accounting and financial data. The workshop will also encourage participants to do analysis of financial data themselves and know how to drift financial data from corporate reports.

Learning Outcomes

To remove fear of accounting and finance and to communicate effectively with Finance Executives.

To acquire a solid grasp of how information is conveyed in basic financial statements and monthly reports reflecting the performances; how to analyze the information, how to use the information to make informed decisions

To enhance the decision making skill by using accounting, cost and management accounting

Concepts in day to day operating decisions and planning the business models
