Program Overview

In a rapidly evolving business landscape, environmental, social, and governance (ESG) considerations have moved from the periphery of board discussions to the heart of corporate strategy. This intensive three-day program equips board directors and C-suite executives with the knowledge, tools, and foresight to transform ESG obligations into a source of competitive advantage.

Participants will explore global frameworks, practical governance models, and strategic ESG integration techniques, while examining their board's current ESG readiness. Case studies, board simulations, and interactive discussions will guide participants toward embedding sustainability into long-term value creation.

PROGRAM LEARNING OUTCOMES

By the end of the program, participants will be able to:

- Understand ESG as a strategic and governance priority—not just compliance.
- Conduct materiality assessments and engage stakeholders meaningfully.
- Integrate ESG into internal controls and risk management systems.
- Evaluate the board's readiness and design structures for ESG oversight.
- Understand and apply disclosure frameworks and climate governance principles.
- Leverage global standards such as IFC Performance Standards for ESG alignment.
- Drive long-term value creation through purpose-led board leadership.
- Craft a roadmap for ESG leadership tailored to their organization's context.

Course Outline
