

Finance for Non-Finance Executives

May 7 & 8, 2025

City Campus, IBA Karachi

Program Overview

Understanding numbers is imperative in today's highly competitive business world. It is considered a business language and a basis for business decision-making. Accounting is the vehicle that helps management plan and control the business resources. The more important the decision, the more need for relevant information. There are financial implications for each decision a manager takes, and even in decision requiring qualitative aspects.

This workshop provides requisite basic concepts of finance & accounting, including terminology and assumptions, valuation, financial statements, identifying trends, and studying competitors, thus becoming strategic users of accounting and financial data. The workshop will also encourage participants to analyze financial data themselves and know how to drift financial data from corporate reports.
